

The MARmaED Report for the first period has now been accepted and the interim payment has been made by the EU.
A big thank you to everyone who contributed!

ESR Rob van Gemert and Supervisor Ken H Andersen @ DTU Aqua's paper: *Implications of late-in-life density-dependent growth for fishery size-at-entry leading to maximum sustainable yield* is now published in the ICES Journal of Marine Science.

The latest MARmaED blogs (published fortnightly) can be found here: [Blog](#)

It's time for the T-MARmaED 3 training event !
